

Dear Friend of MCF,

There is little that gives Ruth and I more joy than spending time with our nine grandsons. We are so blessed to be part of their lives. We are so thankful that they have parents who love them, care for them, and who are raising them to honour and glorify God.

What if that was not the case? As grandparents we cannot imagine their basic needs not being met. We cannot imagine them not having loving family to look after them making sure they are fed, clothed, and educated. We envision a future filled with hope and opportunity for the children in our lives. We cannot imagine children for whom this is not the case. And yet. And yet. For many children in our world, this is not the case.

As I was watching the Mully documentary, especially the scene where Mr. Mulli brings three kids he just rescued from the streets to Esther Mulli late at night, I was overcome

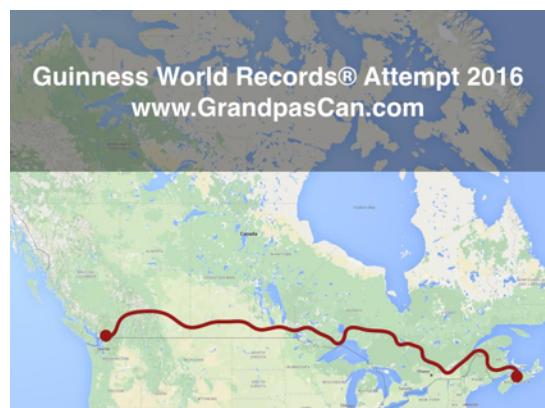

with emotion. I am so grateful for what Charles and Esther Mulli are doing.

As a 59-year-old grandfather, board member of MCF Canada, and having resigned from a 31-year career with Palliser Furniture, I have committed my time and energy to partner with Charles

& Esther Mulli in an effort to be an ambassador for Mully Children's Family. It all began in 2005 when I crossed Canada for the first time in support of children rescued by MCF.

On July 2nd, I plan to leave Vancouver City Hall with my destination being Halifax City Hall. It will be my 4th crossing of Canada by bike. I will attempt to break the GUINNESS WORLD RECORD® which I set in 2011 at 13 days, 6 hours and 13 minutes. Charles Mulli plans to be on my support crew for various stretches of the ride. I believe I have a 51% chance of setting a new record but, with your help, I know I have a 100% chance of restoring hope to hundreds of kids. I am good with those odds.

Please join Ruth and I in helping Charles and Esther feed, clothe, and educate the 2500 kids presently in their care.

Proverbs 22:6 Train up a child in a way he should go: and when he is old, he will not depart from it.
